MISSION

The mission of the Department of Revenue Administration is to fairly and efficiently administer the tax laws of the State of New Hampshire, collecting the proper amount of taxes due, incurring the least cost to the taxpayers, in a manner that merits the highest degree of public confidence in our integrity. Further, we will provide prompt and constructive assistance to the municipal units of government in matters of budget, finance, and the appraisal of real estate.

Assistant Commissioner

October 2, 2017

His Excellency,
Governor Christopher T. Sununu
And Honorable Council
Senate President Chuck Morse
Speaker Shawn Jasper

Dear Governor Sununu, Honorable Councilors, Speaker Jasper, and Senate President Morse,

It is my pleasure to present the Department of Revenue Administration's (DRA) 2017 annual report, as required by RSA 20:7, to you and the citizens of New Hampshire. This report is intended to provide readers with current insight into the activities of the operational units within the DRA, as well as data regarding the taxes we collect and the municipal finance and assessing laws that we administer.

During State Fiscal Year (FY) 2017, DRA staff made significant progress on several technology and organizational initiatives that will have a lasting impact for years to come. The DRA completed the third phase of the Modernized e-File project, launching electronic Business Tax return filing and payment for corporations and partnerships, with the final phase of Business Tax implementation planned for the coming months. With the support of Governor Sununu, we created the Division of Taxpayer Services, reorganizing all tax processing and customer service functions into one unit. Perhaps the most significant development of the past year was the conclusion of planning activities related to the replacement of our outdated taxpayer database, which, together with a \$30 million appropriation from the Legislature, positioned the DRA to begin the procurement and implementation of a new integrated taxpayer database in the coming year.

Thank you for taking the time to review this annual report. If you have any questions, or if you require any additional information, please do not hesitate to contact me directly.

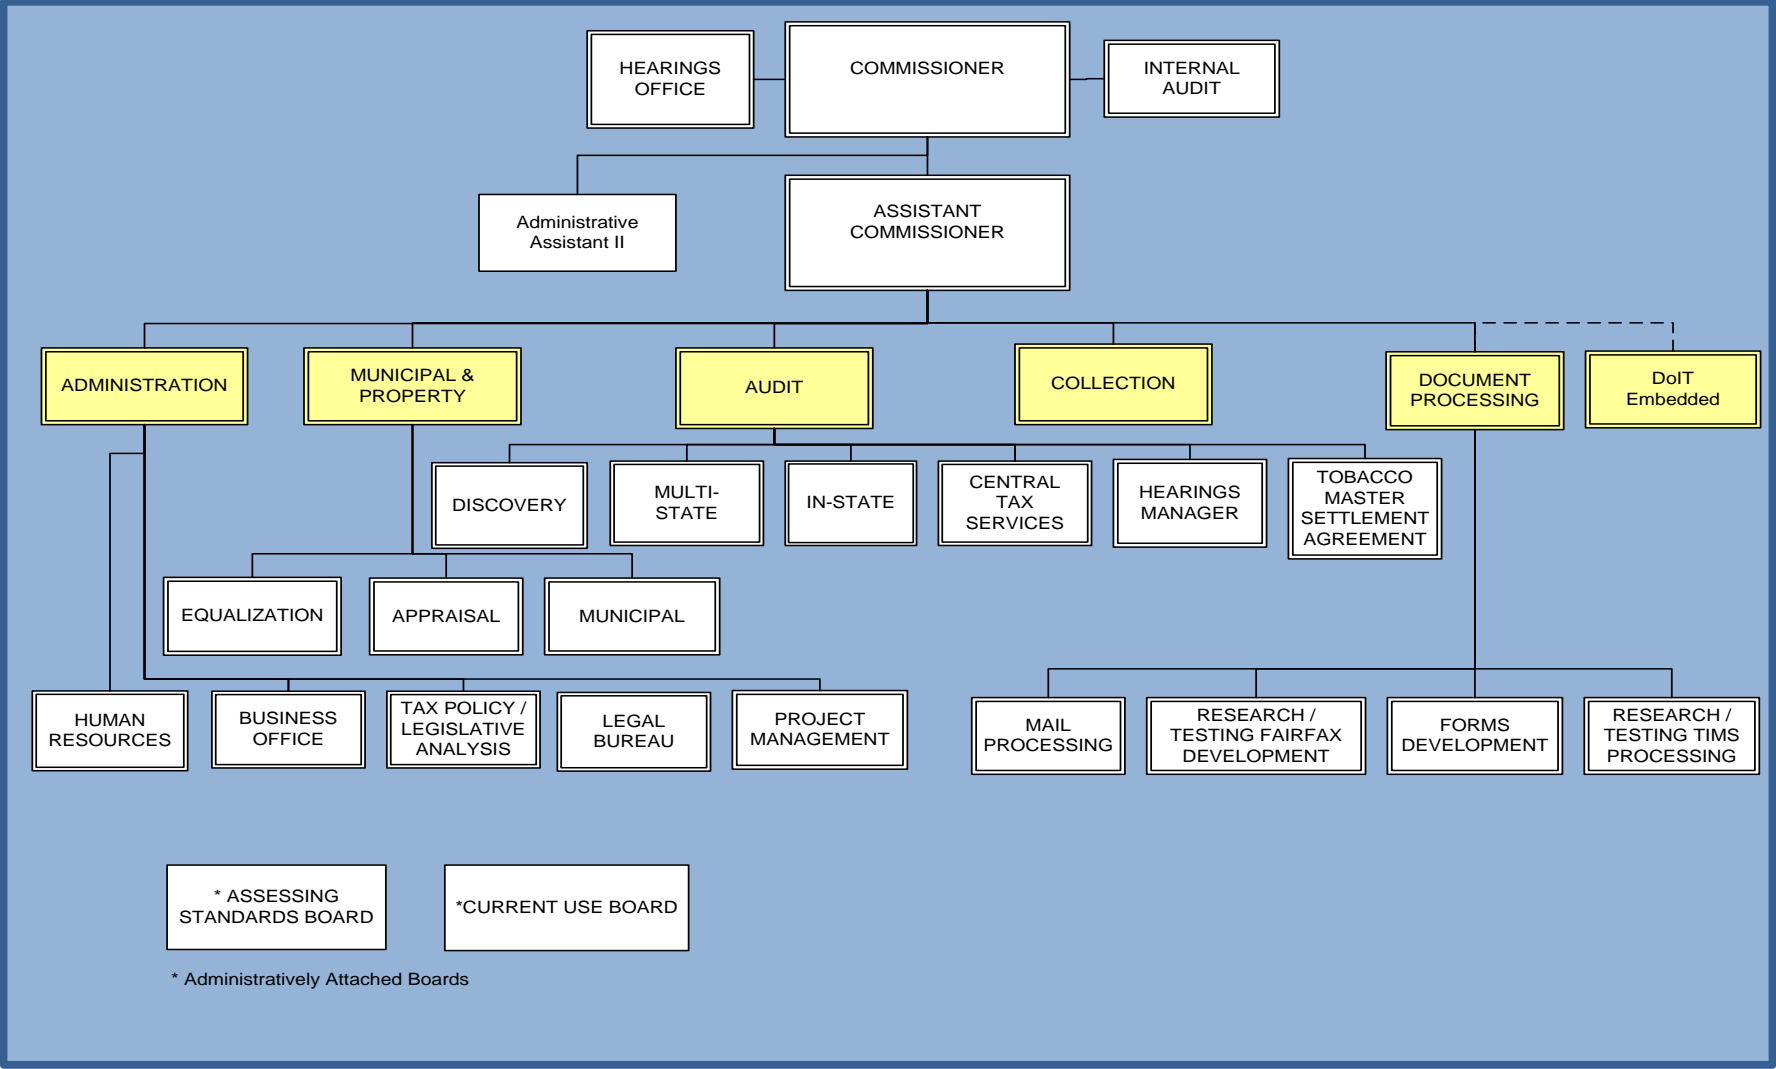

Sincerely,

John T. Beardmore
Commissioner

SUMMARY OF TAXES ADMINISTERED BY THE DEPARTMENT OF REVENUE ADMINISTRATION FY 2017

This is only a brief summary of certain New Hampshire taxes administered by the Department of Revenue Administration. This summary is not intended to be relied upon as a full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

BUSINESS PROFITS TAX - RSA CHAPTER 77-A

The Business Profits Tax (BPT) has historically been one of the largest sources of general fund revenue. Enacted in 1970 as a replacement for the municipal property tax on stock-in-trade, farm livestock, poultry, fuel pumps, mills and machinery, the initial rate was established at 6%. The rate steadily increased to a high of 9.56% in Fiscal Year (FY) 1983. The rate then decreased to 7% beginning FY 1995, then increased to 8% for tax years ending on or after July 1, 1999. The rate of 8.5% was effective for all returns and taxes due on account of taxable periods ending on or after July 1, 2001. For taxable periods ending on or after December 31, 2016, the BPT rate is reduced to 8.2%. For taxable periods ending on or after December 31, 2018, the BPT rate is reduced to 7.9%, contingent upon combined unrestricted general and education trust fund revenues of \$4.64

billion being collected during the biennium ending June 30, 2017. For taxable periods ending on or after December 31, 2019, the BPT rate is reduced to 7.7% and for taxable periods ending on or after December 31, 2021, the BPT rate is reduced to 7.5%. The BPT is assessed on income from conducting business activity within the state. For multi-state businesses, income is apportioned using a weighted sales factor of two and the standard payroll and property factors. Organizations operating a unitary business must use combined reporting in filing their NH return. Four annual estimate payments are required on liabilities greater than \$200, paid at 25% each. BPT return due dates are consistent with federal return due dates based on the taxpayer's entity type. Business organizations with \$50,000 or less of gross business income from all their activities are not required to file a return. Business organizations, however, that realize a gain or loss on the sale or

exchange of an interest in the business organization shall file a return for the taxable period, regardless of whether or not the business organization's gross business income is in excess of \$50,000 during the taxable period.

BUSINESS ENTERPRISE TAX - RSA CHAPTER 77-E

In 1993, a 0.25% tax was enacted on taxable enterprise value tax base, which is the sum of all compensation paid or accrued, interest paid or accrued, and dividends paid after special adjustments and apportionment. Chapter 17, Laws of 1999 increased the rate from 0.25% to 0.5%. The rate was increased to 0.75% in 2001. For taxable periods ending on or after December 31, 2016, the Business Enterprise Tax (BET) rate is reduced to 0.72%. For taxable periods ending on or after December 31, 2018, the BET rate is reduced to .675%, contingent upon combined unrestricted general and education trust fund revenues of \$4.64

billion being collected during the biennium ending June 30, 2017. For taxable periods ending on or after December 31, 2019, the BET rate is reduced to .6% and for taxable periods ending on or after December 31, 2021, the BET rate is reduced to .5%. In 2001, the filing threshold increased to \$150,000 (from \$100,000) of gross business receipts or \$75,000 (from \$50,000) of the enterprise value tax base. In 2013, the filing thresholds increased to \$200,000 (from \$150,000) of gross business receipts or \$100,000 (from \$75,000) of the enterprise value tax base and will be adjusted biennially, using the Consumer Price Index, Northeast Region, beginning with taxable periods ending on or after December 31, 2015. Four annual estimate payments are required on liabilities greater than \$200 for taxable periods ending before December 31, 2013 and \$260 for taxable periods ending on or after December 31, 2013; paid at 25% each on the 15th day of the 4th, 6th, 9th and 12th months of the taxable year. The BET return is due at the same time the BPT return is due. The BET may be used as a credit against the BPT under RSA 77-A:5. Any unused portion of the credit may be carried forward and

allowed against the BPT for five taxable periods from the taxable period in which the BET was paid for credits from taxable periods ending before December 31, 2014 and for ten taxable periods from the taxable period in which the BET was paid for credits from taxable periods ending on or after December 31, 2014.

**COMMUNICATIONS SERVICES TAX
RSA CHAPTER 82-A**

First enacted in 1990 at 5.5%, this tax was assessed upon two-way communications services. Chapter 158, Laws of 2001, increased the permanent portion of the tax to 4.5% and continued the surtax of 2.5%, resulting in an overall tax rate of 7% for the period beginning July 1, 2001 and ending June 30, 2003. A permanent rate of 7% was passed effective July 1, 2003. Retailers must register with the Department and are required to collect and remit the tax. Communications Services Tax returns must be filed by the provider on the 15th day

of the month for the preceding calendar month unless the average monthly liability is less than \$100. Any provider/retailer who can reasonably estimate its average monthly liability to be in excess of \$10,000 is required to make an estimated payment equal to 90% of the actual tax collected. This payment is due on or before the 15th day of the month during which the liability is incurred.

**EDUCATION PROPERTY TAX
RSA 76:3**

Under Chapter 17, Laws of 1999, the Education Property Tax was established. The tax is assessed and collected by municipalities to be retained for use by their local school districts. The rate was originally \$6.60 per thousand of equalized valuation without utilities. The tax appears on the same bill with the other property taxes administered at the local level. The effective date of this tax was April 1, 1999. Chapter 158, Laws of 2001 reduced the rate from \$6.60 per \$1,000 of value to \$4.92 per \$1,000 of value beginning with the April 1, 2003 tax year. The sunset provision of the Education Property Tax was repealed, making the tax a permanent revenue source

dedicated to funding education. As of April 1, 2005, the rate was \$3.33 per \$1,000. Beginning in July of 2005, and every fiscal year thereafter, the Commissioner is required to set the tax rate at a level sufficient to generate revenue of \$363,000,000.

ELECTRICITY CONSUMPTION TAX RSA CHAPTER 83-E

Effective May 1, 2001, the Electricity Consumption Tax is imposed at a rate of \$.00055 per kilowatt hour on persons, including governmental units, distributing, redistributing or transmitting electrical energy for consumption in this state. The tax is paid by the consumer and collected and submitted by distribution companies, except in the case of consumers who generate their own power. These self-generating companies or individuals must submit tax returns on their own behalf. Returns (Form DP-133) must be filed on the 15th day of the second month following the month in which the electrical energy was provided to a consumer and for which tax is due. Effective January 1, 2019, the Electricity Consumption Tax is repealed.

INTEREST & DIVIDENDS TAX RSA CHAPTER 77

The Interest & Dividends (I&D) Tax, which was first enacted in 1923, applied a tax based on the “average rate of property taxation” upon the income and dividend income received by New Hampshire residents from sources other than New Hampshire and Vermont banks. The tax was changed significantly in FY 1995 to eliminate the exemption on income from New Hampshire and Vermont banks. In conjunction with this change, the personal exemption increased from \$1,200 to \$2,400. The exemption for joint filers increased from \$2,400 to \$4,800. Estimated I&D Tax payments are due April 15th, June 15th, September 15th and January 15th on tax liabilities greater than \$500. The I&D Tax return is due on April 15th. Additional exemptions are available for residents who are 65 years of age, who are blind, and who are handicapped and unable to work, provided

they have not reached their 65th birthday. The current tax rate of 5% has remained the same since FY 1977. For taxable periods ending on or after December 31, 2013 trusts are no longer taxable under the I&D Tax. Instead, interest and dividend income received by the grantors or beneficiaries of trusts, to the extent that they are inhabitants or residents of New Hampshire, is subject to taxation.

LOCAL PROPERTY TAX RSA CHAPTER 76

Property taxes, based upon local assessed valuations, are administered and collected by the individual cities and towns. The majority of property taxes collected are based on the market value of the property at its highest and best use. Some property taxes, however, are based on the market value of a property’s actual use, such as current use assessments under RSA Chapter 79-A for certain Farm Land, forest land, and unproductive land. The program is for properties dedicated to remaining as open space. A Land Use Change tax of 10% of the market value of the property is charged upon the occurrence of a disqualifying event (usually a development, use or sale of a portion of a property).

Typically ten acres or more of dedicated land is required. Application to local officials on or before April 15th is required.

Taxes on the value of standing timber are assessed under RSA chapter 79. These are assessed by local officials, at a rate of 10% of the value of the standing timber. The annual filing of an intent to cut and the subsequent report of timber cut are required.

Taxes on the value of gravel and excavated materials are assessed under RSA Chapter 72-B. These are assessed at a rate of at the rate of \$.02 per cubic yard of earth excavated.

Local Property tax exemptions, credits and deferrals:

Elderly Exemption: Effective July 23, 1996, RSA 72:39-a replaced the Standard, Expanded, Adjusted and Optional Adjusted Elderly Exemptions. The statute sets the minimum exemption, which the cities and towns may modify as follows:

Amount of exemption from value of residential real estate: Ages 65-74; 75-79; and 80+

Net Income Limits, including Social Security Income or

pension payment Net Asset Limits

Blind Exemption RSA 72:37

The exemption for the legally blind must be adopted by the municipality. The exemption is a minimum \$15,000 reduction of the assessed value of the residential real estate (RSA 72:29) and could be higher if amended through referendum vote.

Deferral for the Elderly or Disabled RSA 72:38-a

The assessing officials "... may annually grant a person qualified under this paragraph a tax deferral..." Property taxes are deferred and accrue interest at the rate of 5% per annum. The deferred property tax may not exceed more than 85% of the equity value of the residence. If granted by the assessing officials, the deferral is available to any resident property owner who is 65 years or older, or eligible for benefits for the totally and permanently disabled under the federal social security act, has owned the home for at least five years, and is currently residing there.

Veterans Tax Credit RSA 72:28

Qualifying residents shall receive the following amounts deducted from their tax bills:

\$50: Basic credit available to all veterans.

\$700: For the surviving spouse of a veteran, pursuant to RSA 72:29-a, and veterans having a total and permanent service-connected disability pursuant to RSA 72:35.

Towns may adopt a local option to increase the above dollar amounts to \$500 and \$2,000 or to extend the credit to all honorably discharged veterans regardless of dates of service in relation to war-time periods.

Disability Exemption: A resident who qualifies under RSA 72:36-a as totally and permanently disabled from service connection, and is paraplegic or having double amputation from military service connected disability or blind (5/200 vision or less) as a result of service connection, and owning a specially adapted home acquired with V.A. assistance is exempt from all taxation on that home.

**Tax Exemption for Improvements to Assist Persons with Disabilities
RSA 72:37-a**

This exemption is limited to a physically handicapped person who resides at the residential real estate and is applicable to only the value of any special aids required by the resident to enable them to propel themselves.

**Tax Exemption for Wind-Powered, Solar and Wood Heating Energy System
RSAs 72:66, 72:62, 72:70**

These exemptions are optional to the cities and towns, and must be voted upon locally.

**Tax Exemption for the Disabled
RSA 72:37-b**

Available to persons eligible under the Social Security Act for benefits to the Totally & Permanently Disabled. Applicable only on the applicant's principal place of abode. The exemption is optional and must be voted on by the municipality, which also determines the amount of the exemption and the income/asset limitations.

**MEALS & RENTALS TAX
RSA CHAPTER 78-A**

The Meals and Rentals (M&R) Tax was enacted in 1967 at a rate of 5%. The tax is assessed upon patrons of hotels and restaurants, on certain rentals, and upon meals costing \$.36 or more. Chapter 144, Laws of 2009, increased the rate from 8% to the current rate of 9%. An M&R Tax Operators License is required. The M&R Tax is required to be remitted to the State on the 15th day of the month following the collection of tax, accompanied by the M&R Tax return. An M&R Operator is required to

maintain books and records showing the amount of tax collected and to remit the tax monthly to the State, less a 3% commission.

**MEDICAID
ENHANCEMENT TAX
RSA CHAPTER 84-A**

The Medicaid Enhancement Tax (MET) was enacted in 1991 at a rate of 8% of gross patient services

revenue of every hospital. In 1993, the rate was changed to be established by legislation each biennium upon the gross patient services revenue of every hospital for the hospital's fiscal year ending during the first full calendar year preceding the taxable period. If the Legislature failed to set the rate of tax on or before April 1, preceding the first fiscal year of the biennium, the tax rate was to be zero for that biennium. In no event was the rate of the tax be greater than 6 percent for any biennium. In 1998, the law was amended to require the Legislature to set the tax rate on or before May 1. In 2003, the tax rate was changed to 6% of gross patient services revenue. In 2004, the 6% tax on gross patient services revenue was changed to a 6% tax upon the "net" patient services revenue of every hospital. In 2007, the tax rate was reduced to 5.5% of net patient services revenue. For taxable periods ending June 30, 2014 and prior, hospitals are required to pay 100% of the tax due for the taxable period no later than the 15th day of the fourth month of the taxable period and were required to file a tax return with the Department on or before the 10th day of the month following the

expiration of the taxable period. For taxable periods ending June 30, 2015 and after, special hospitals for rehabilitation are no longer included in the definition of "hospital" and hospitals are required to file a return on or before the 15th day of April in the taxable period. In addition, every hospital shall on or before January 15 in the taxable period make a nonbinding estimate of its projected tax payment. The tax rate decreases to 5.45% for the taxable period ending June 30, 2016, to 5.4% for the taxable period ending June 30, 2017 and will remain at 5.4% for the taxable period ending June 30, 2018 and every taxable period thereafter unless the total aggregate uncompensated care for hospitals with both a critical and a noncritical access hospital definition falls below \$375 million, at which point the tax rate shall be 5.25%.

**REAL ESTATE
TRANSFER TAX
RSA CHAPTER 78-B**

The Real Estate Transfer Tax (RETT) was first enacted in 1967. Chapter 17, Laws of 1999, increased the permanent tax rate assessed on the sale, granting, and transfer of real estate and any interest in real estate to

\$.75 per \$100, or fractional part thereof, of the price or consideration. This rate is assessed on both the buyer and seller for a combined tax rate of \$1.50 per \$100. Where the price or consideration is \$4,000 or less, there is a minimum tax of \$20 assessed on both the buyer and seller. The tax is paid at the Registry of Deeds office in the county where the property is located. A Declaration of Consideration (Form CD-57) must be filed with the Department by both the purchaser and seller no later than 30 days from the recording of the deed at the Registry of Deeds or transfer of real estate, whichever is later.

**RAILROAD TAX
RSA CHAPTER 82**

Every railroad, railway, express, and every parlor, sleeping or dining car company, or other company not a railroad company owning any cars operated for profit on any railroad in the State of New Hampshire shall pay an annual Railroad Tax as of April 1 of each year. The Railroad Tax is on

the market value of the property's full and true value as defined in RSA 75:1. The tax is imposed at the average rate of taxation at that time upon other property throughout the State. Railroad "property" applies to both railroad companies (an enterprise, corporation, partnership, etc.) and private rail cars operated for profit on any railroad in the State of New Hampshire.

**TOBACCO TAX - RSA
CHAPTER 78**

The Tobacco Tax is a direct tax upon the consumer at retail. However, it is pre-collected and paid by the wholesaler. It is presumed the Tobacco Tax has been pre-collected and paid by the wholesaler by the affixing of a Tobacco Tax Stamp on the tobacco product. The Tobacco Tax was first enacted in 1939. Originally the tax was based upon the value at the usual selling price of all tobacco products. In 1975, the tax was changed to a flat rate of \$0.12 per package of 20 cigarettes. At that time, there was no tax on other tobacco products. Over the next 34 years the tax was increased from \$0.12 to \$1.78 per package. In 2011, the Tobacco Tax rate was decreased from \$1.78 to \$1.68 for each package containing 20 cigarettes or

at a rate proportional to such rate for packages containing more or less than 20 cigarettes. As of August 1, 2013 the Tobacco Tax rate increased from \$1.68 to \$1.78 for each package containing 20 cigarettes, per Chapter 224:379 through 381, Laws of 2011. In 1991, the Legislature enacted a tax on tobacco products other than cigarettes (OTP Tax) at the rate “proportional to the cigarette tax, having such ratio to the usual wholesale price of the tobacco product other than cigarettes as the cigarette tax bears to the usual wholesale price of the cigarettes.” In 2003, the OTP Tax was changed to 19% of the wholesale sales price. The OTP Tax rate was changed again in 2009 to 48.59% of the wholesale sales price, and then in 2010 to a rate of 65.03% of the wholesale sales price. In 2011, the OTP Tax rate was decreased to 48% of the wholesale sales price. As of August 1, 2013, the OTP Tax rate increased from 48% to 65.03% of the wholesale sales price, per Chapter 224:379 through 381, Laws of 2011. Wholesalers are required to report their tax liability for the collection of the OTP Tax on a monthly basis. The return is due on or before the 15th day of the month following the end of the

reporting period. Wholesalers may file quarterly, but permission to file quarterly must be pre-approved, in writing, by the Department.

NH State Insect, the Ladybug

UTILITY PROPERTY TAX RSA CHAPTER 83-F

Utility property is defined as “all real estate, buildings, and structures, machinery, dynamos, apparatus, poles, wires, fixtures of all kinds and descriptions, and pipe lines located within New Hampshire employed in the generation, production, supply, distribution, transmission, or transportation of electric powered or natural gas, crude petroleum and refined petroleum products or combination thereof, water, or sewage.” In 2011, “utility property” was amended to exclude: the electrical generation, production, and supply equipment of an “eligible customer-generator” as defined in RSA 362-A:1-a, II-b; property used for the retail distribution of fuel for personal, non-commercial use, use as a fuel in a

motorized vehicle, home cooking, or heating; and that portion of a manufacturing establishment’s generation, production, supply, distribution, transmission, or transportation of electric power or natural gas, crude petroleum and refined petroleum products or combinations thereof, water, or sewage subject to tax under RSA 72:6, 72:7, and 72:8, but not exempt under RSA 72:23, that is expended, used, or consumed on-site primarily for the operation of the manufacturing establishment and that does not otherwise enter the stream of commerce. The Utility Property Tax rate is \$6.60 per \$1,000 of value of utility property. On December 1 of each year the Department determines the value of utility property as of the previous April 1. The tax is due annually on or before January 15th. Every corporation or company required to pay Utility Property Tax must file a declaration of its estimated Utility Property Tax for the subsequent taxable period. Quarterly estimated payments of the Utility Property Tax are due on April 15th, June 15th, September 15th, and December 15th.

DRA HIGHLIGHTS FY 2017

Did you know the DRA collected more than 80% of the state's general fund revenue?

Tax Training Sessions. DRA holds many training sessions that are open to the public regarding Meals and Rentals Tax, Tobacco Tax, Property Tax Exemptions and Credits, The Equalization Process, Real Estate Assessment Review, New Tax Collector Workshops, and Taxation of Utilities and Railroads.

e-File New Hampshire. The DRA has made it easier to pay your Business Enterprise Taxes, Business Profits Taxes, Interest & Dividends Taxes, Meals and Rooms (Rentals) Taxes, and Real Estate Transfer Taxes online. For additional information, visit our

website at www.revenue.nh.gov

Balanced Scorecard. Staff from each unit of the DRA worked diligently to establish and track performance measures for key operational functions, building a Balanced Scorecard which will assist managers and staff in tracking progress and identifying areas for improvements. The Balanced Scorecard will be tracked monthly going forward, and the annual results will be posted to the DRA website to improve our internal transparency with taxpayers.

Executive Branch Regulatory Review. As requested by the Governor, the Department conducted a comprehensive review of all its administrative rules, as well as those of the Assessing Standards Board and the Current Use Board, which are both administratively attached to the Department. Upon completion of this review, the Department determined that these rules are mandated by law. However, the Department was able to clarify and eliminate sections of certain rules, combine multiple rules into a single rule and will conduct an additional review of certain statutes and rules with the goal of identifying changes to promote consistency and ease the implementation and compliance burden on business.

DRA's Call Center is open for questions Monday – Friday 8am to 4:30pm.

DRA Call Log. During fiscal year 2017, DRA handled a total of 36,624 taxpayer phone calls. A breakdown of the calls is as follows: 19,762 calls were related to general taxpayer questions, 8,934 calls were in response to written correspondence a taxpayer received from the DRA, 4,236 calls were related to tax assessments and the collection of outstanding taxes due and 3,692 calls were questions regarding the low and moderate homeowners property tax relief program, municipal tax rates, property tax assessments, timber and gravel tax, utility property tax, property tax exemptions/credits or current use property questions and finally, technical calls.

The New Hampshire Department of Revenue Administration's staff will always be ready to take your important phone call. OFFICE OF REVENUE COUNSEL

PO BOX 457, CONCORD, NH 03302-0457
LEGAL BUREAU 603.230.5026

FROM THE LEGAL BUREAU

Shaun P. Thomas, Assistant Revenue Counsel

The Office of Revenue Counsel provides legal advice and representation to the Department, including rendering advice and legal opinions to Department personnel; managing bankruptcy cases; drafting and coordinating the adoption of administrative rules; handling Right-to-Know Law requests; representing the Department before the Board of Tax and Land Appeals and the Department's Hearings Bureau; and providing assistance and advice in connection with audits and other stages of the enforcement and administration of tax laws. In addition, the Office of Revenue Counsel coordinates and assists with the Department of Justice's representation of the Department and acts as co-counsel in certain cases.

During FY 2017, the Office of Revenue Counsel defended civil cases filed in administrative appeal tribunals and state courts concerning appeals of tax assessments and challenges to state taxing statutes, managed bankruptcy cases in which the Department is a creditor, and

managed the administrative rules process, in addition to providing advice and legal opinions. Often, the cases managed by the Office of Revenue Counsel have the potential for a substantial fiscal impact or significant precedential value. Below is a description of the decisions issued during

Municipal Law

Appeal of New Hampshire Electric Cooperative, Inc., NH Supreme Court Case 2015-0625 (6/2/2017); Appeal of Public Service Company Of New Hampshire D/B/A Eversource Energy, NH Supreme Court Case 2015-0626 (6/2/2017). These two consolidated cases involved rulings largely against the taxpayers by the Board of Tax and Land Appeals (“BTLA”) in dozens of separate local property tax abatement appeals for the 2011 and 2012 tax years. On appeal to the Supreme Court, the Department filed amicus briefs supporting the validity of the “unit method” of appraisal, where a utility’s property is valued as a whole and then a portion of that whole unit value is allocated to each individual municipality. The BTLA upheld the town’s valuations in 16 of the 23 appeals filed by the New Hampshire Electric Cooperative, and in 77 of the 86 appeals filed by Eversource Energy, which the Supreme Court affirmed in both cases. In New Hampshire Electric Cooperative, the Supreme Court explicitly noted that the unit method had not been invalidated by the BTLA.

MEALS AND ROOMS TAX

State of New Hampshire v. Priceline.com, Inc., Expedia, Inc. Orbitz, LLC and Travelocity.com, LLP et al., Merrimack County Superior Court, No. 217-2013-CV-00613. In 2013, the State of New Hampshire filed suit against 11 online travel companies (“OTCs”), including Priceline.com, Inc., Expedia, Inc., Orbitz, LLC, and Travelocity.com, LLP. The State alleges that the OTCs are operating their businesses in such a way as to avoid paying tax due as required by the Meals and Rooms Tax (“MRT”) Law, RSA Chapter 78-A, and are, in fact, collecting the amount of MRT due from consumers. The State alleges that the OTCs sold or provided hotel rooms and motor vehicles to the

M&R Operator Guilty Plea

State v. Sophea Yay, No. 216-2016-CR-256 (N.H. Super. Ct. N.D. Hillsborough 1/19/2017). The operator and manager of Central Ale House, located in Manchester, pled guilty to theft and perjury in Hillsborough County Superior Court Northern Division on January 19, 2017. From March of 2014 through August of 2015, Sophea Yay stole a total of \$37,101.01, when she collected Meals and Rentals Tax payments from her patrons, but failed to remit a substantial portion of those payments to the Department each month, instead treating the funds as her own. Further, during the underlying investigation, Ms. Yay made a false, material statement when she testified in front of the Grand Jury, by lying about her past involvement in the business. Ms. Yay was sentenced to two concurrent State Prison sentences of 3.5 to 7 years, all of which was suspended on the condition of good behavior for three years. As part of the sentence, Ms. Yay submitted a full restitution payment of \$37,101.01.

public, but did not remit the full amount of the MRT due under RSA 78-A to the State. The State further alleges that the OTCs are engaging in unfair and deceptive trade practices prohibited by the Consumer Protection Act, RSA Chapter 358-A. Beginning on May 1, 2017, the Court held a two-week trial. Following the trial, the Court ordered a schedule for filing post-trial briefs and replies. The State and the OTCs filed their post-trial briefs on June 30, 2017, and August 4, 2017, respectively. The State filed its reply on August 25, 2017, and the OTCs’ reply is due on September 8, 2017. There is no timeline for a decision.

HEARINGS BUREAU

During FY 2017, the Hearings Bureau continued to increase efficiency to provide better service to the taxpayer given our available resources. We have continued to review administrative tasks and work flow to ensure that our processes are as lean and efficient as possible to maximize our productivity.

In FY 2017, the overall time required to produce a Final Order after the close of the record increased to an average of 23.04 days; as compared to 17.20 days in FY 2016. With respect to taxpayer petitions, the time to produce a Final Order after the close of the record averaged 38.68 days, and we met our goal of issuing an order within 60 days 87.88% of the time, which was a decrease from 88.24% in FY 2016. With respect to cases involving license denials, suspensions and revocations, bonds, and tobacco seizures, the time to produce a Final Order after the close of the record averaged 14.06 days, and we met our goal of issuing an order within 14 days 84.48% of the time, which was decrease from 98.11% in FY 2016. However, the total number of final orders issued in FY 2017 also increased by 39.13% from the number issued in FY 2016. In cases in which an order was not issued within the timeframe we have set as a goal, the cause of the delays generally include, but are not limited to, the following: that the order involved complex legal issues which needed additional time to research and write orders, that the Hearing Bureau's full hearing schedule reduced the time available to research and write orders, and/or delays resulting from the unavailability of necessary personnel.

During FY 2017, the Hearings Bureau has continued to make progress in more fully implementing the use of technology in order to increase efficiency. We have implemented an electronic indexing and filing system for older paper case files in order to quickly access older information prior to implementation of our electronic case management systems, and have processed case files dating from 1990 through 2008 so far.

The Hearings Bureau's goal for FY 2018 is to continue to maintain an appeal process which provides a fair and efficient system that ensures the highest degree of confidence in the integrity of this system, and timely performance. This includes continuing to streamline administrative processes in order to allow us to meet our goals of issuing Final Orders on taxpayer petitions within 60 days after the close of the record in each case, and of issuing Final Orders on license denials, suspensions and revocations, bonds, and tobacco seizures, within 14 days after the close of the record in each case.

The following statistics summarize the activity of the Hearings Bureau during the past fiscal year as compared to the prior fiscal year:

	FY16	FY 17	% of Change
Appeals Filed	117	154	31.62%
Cases closed	116	142	22.41%

THE AUDIT DIVISION

Director of Audit:
Frederick J. Coolbroth, Jr.

Assistant Director of Audit:
Kerrin A. Rounds

AUDIT DIVISION

The mission of the Audit Division is to promote taxpayer compliance with New Hampshire's tax laws through: fair, impartial, and efficient selection and review of taxpayers' returns; taxpayer education; and discovery of non-filers. The Audit Division is committed to team work, professional development, and high standards of professionalism.

Members of the audit staff conduct both desk audits and field audits. The type of audit depends on the nature and scope of the audit and the proficiency of the auditor.

In fiscal year 2017, DRA auditors completed the review of 1,094 taxpayers' returns. Of that number, 840 taxpayers' returns were audited resulting in assessments totaling \$27,185,383 in tax, penalties, and interest as well as reductions to refund requests, net operating loss deductions and business enterprise tax credit carry-forwards totaling \$5,642,520. The remaining 254 returns were reviewed, but the Division ultimately did not pursue full formal audits, because there were no apparent issues.

The Discovery/Nexus Unit researches federal and state filings, as well as on-line resources, to discover non-filers who may have a duty to file and pay New Hampshire business taxes, meals and rooms taxes, or interest and dividends taxes. As a result of the Unit's efforts in fiscal year 2017, an additional \$4,392,261 in tax, penalties, and interest was collected, of which \$208,760 came in through the voluntary disclosure program.

The Tobacco Unit conducted 39 compliance checks resulting in 16 seizures of contraband tobacco products. Eight audits of New Hampshire tobacco wholesalers were completed. The Unit also assisted the U.S. Attorney's Office in tobacco tax evasion cases and conducted joint tobacco/liquor investigations with the state Liquor Commission. The Unit continued to update the new tobacco database to gather additional information on non-participating manufacturers in accordance with the requirements of the Master Settlement Agreement. The Unit offered a tobacco tax training session for tobacco wholesalers and a separate session for New Hampshire tobacco retailers. Members of the Unit attended the Federation of Tax Administrators' Annual Tobacco Conference as well as the Northeast Regional Tobacco Conference.

The mission of the Collections Division is to ensure taxpayer compliance with the tax laws of New Hampshire by fairly and effectively recovering overdue taxes through the uniform application of state laws, rules and policies.

Collections Division

Ora LeMere, *Division Director*

The Division of Collections is established by RSA 21-J:8 with two defined tasks in statute

- a) Collecting all outstanding taxes owed to the state, which are within the department's jurisdiction.
- b) Securing all delinquent returns required to be filed with the state by any taxpayer.

The division carries out these tasks by: (1) collecting delinquent notices of assessments resulting from tax returns, (2) following up on Meals and Rentals (M&R) tax returns not filed by the 15th of the month as mandated by RSA 78-A, (3) selling tobacco stamps to be affixed to packages of cigarettes and (4) licensing and educating M&R operators charging for taxable meals, room rentals and motor vehicle rentals. The division budget authorized 11 full time positions, 1 unclassified and 10 classified, including 1 unfilled classified positions on June 30, 2017.

The division continues to enhance the Balanced Scorecard process and has tracked statistics in the identified areas: Meals and Rentals licenses issued, Meals and Rentals monthly returns filed timely, Tax Notice payments, and the training of Collection staff.

The division's goals for FY 17 included: (1) Reconfigure division and redistribute compliance regions (2) Update Collections manual and implement Compliance Officer performance standards (3) Implement case management system to track activity and productivity of Compliance Officers (4) Review selected business activity of M&R operators for compliance (5) Acquire field equipment and train staff to log field activity (6) Conduct biannual training seminars for newly licensed operators (7) Evaluate effectiveness of outside collection agencies (8) Analyze collection and distraint options (9) Implement monthly and quarterly meetings with staff to review productivity and enhance procedures.

Six of the nine goals were executed, leaving three incomplete at the end of the fiscal year. The training program for Compliance Officers is still in the development stages. Various processes were reviewed to achieve the remaining measurable goals, such as the use of mass emails to operators to increase participation and the implementation of payment plan terms that can be used in our legacy system for tracking purposes. Other work process improvements were undertaken to improve overall collection results.

Municipal & Property Division

Stephan Hamilton, Director

The mission of the Municipal and Property Division is to assure fairness, equity and proportionality in the assessment and collection of property taxes and the administration of municipal finances in the state by establishing tax rates, providing technical assistance and education to municipal officials, monitoring revaluations, reviewing assessment practices, equalizing local assessed valuation, appraising public utility and railroad property, and administering timber and gravel taxation.

The division consists of two units, **Municipal and Property**.

The Municipal Bureau establishes and approves municipal, school, county, state, and village district tax rates. It provides technical assistance on taxation and finance to approximately 550 political subdivisions of the state and general supervision to municipal tax collectors. Other services include:

- Prescribing a uniform chart of accounts for all municipalities
- Establishing a standard technical assistance manual for municipalities' use
- Reviewing trustee reports of municipal trust funds in conjunction with the Department of Justice Charitable Trust Unit
- Conducting workshops and seminars for municipal officials, including selectman, budget committees, trustees of trust funds, tax collectors, and school officials.

The Property Assessment Unit oversees the assessment review process and monitors revaluations and revaluation contracts. The Equalization Bureau determines the total equalized value of all taxable property in the state on an annual basis.

This allows shared tax burdens, such as the state education tax and county property taxes, to be apportioned at a single standard, market value. The equalization process includes compiling assessment data, conducting ratio studies, and preparing statistical reports. Other responsibilities include:

- Valuing all utility and railroad properties in order to determine the correct assessment of RSA 82 Railroad Taxes and RSA 83-F Utility Property Taxes;
- Providing administrative support to the municipalities in their assessment and collection of the RSA 79 Timber Tax and the RSA 72-B Excavation Tax;
- Providing direct education on property assessments to municipal officials and assessors, as well as taxation and finance professionals; and,
- Providing support to the Assessing Standards Board and the Current Use Board, two administratively attached boards.

Accomplishments of FY 2017 Municipal and Property Division

The Division made numerous efforts to improve its services to municipalities and municipal officials and to improve its transparency. Some of these efforts are completed, while others are ongoing. During FY 2017, the Division accomplished the following:

- Completed the readoption process for administrative rules, Rev 400, Property Tax Exemptions and Credits
- Coordinated the transfer of the 2016 Low and Moderate Tax Relief program to the Taxpayer Services Division, including significant knowledge transfer
- Prepared and presented dozens of educational presentations for municipal officials, contractors, agents, employees, and county and school finance officials. This education also included several direct presentations to taxpayers that included basic revaluation and tax rate calculations
- Developed the ability to present courses prepared by the International Association of Assessing Officials, which provided greater educational opportunity for professional assessors by sponsoring such courses
- Through a contract with Axiomatic, LLC, managed and improved new municipal finance e-file and data management system known as the Municipal Tax Rate Setting Portal, including upgrades to both the system and associated reports. This effort also included the training of hundreds of municipal officials both online and at in-person events
- Through the same contract with Axiomatic, LLC, managed and upgraded the Equalization Portal, to include among other things the ability for users to look-up statewide sale information
- Provided support to the Tax Policy and Legislative Analysis Group in the tracking, analysis and testimony of legislative proposals that involved NHDRA, local tax assessment, local tax collection, and municipal and county finance
- Improved timely filing of municipal finance reports that support tax rate setting
- Assisted in the completion of Phase II of the e-file portal for the filing of Real Estate Transfer Tax documents
- Improved usability of historic data on our website.
- Completed the adoption of administrative rules, Rev 612, Property Assessment, Replacement Cost New (RCN) of Telecommunications Poles and Conduits and Inventory Form

The following are brief descriptions of the efforts that have not been completed by the end of the fiscal year, but are ongoing:

- Presentation of additional advanced property tax assessment classes
- Developing and deploying a stronger process to increase our review and follow-up on the results of local audits
- Conversion of standard reports and form letters to incorporate more understandable language and less technical jargon
- The creation of a central repository for downloading information from our website
- Deployment of regular "Balanced Scorecard" reporting of Division activities

T **ECHNOLOGY DEVELOPMENTS**

The DRA, with the support of the Department of Information Technology (DoIT), uses technology to provide an efficient and streamlined end-to-end tax process, which benefits the NH taxpayer, by providing modernized operations and accurate information.

During FY 2017 DRA completed Phase III of the Modernized e-File (MeF) system to add Business Enterprise and Business Profits Tax return filings for both Corporate and Partnership entities. The FY2017 filing season continues to reflect an increase in the number of returns received approximately 40,000 returns accepted. For tax year 2017, and over \$2.7 million in associated ACH debit payments. In order to continue to expand on the available functionality, planning and development for the filing of Fiduciary and Proprietorship returns through the MeF system began and will be available for Tax Year 2017. During FY 2017, the DRA completed the migration of all miscellaneous tax forms from an outdated scanning application to the core Document Imaging and Electronic Remittance solution.

Also during FY 2017, DRA began an initiative to phase out personal desktop and network printers. When the project is completed, the Department will decommission thirty network printers resulting in an overall cost savings.

Over the upcoming Fiscal Year, DRA in conjunction with DoIT plans to procure a Commercial off the Shelf (COTS) solution to replace the legacy Tax Information Management System (TIMS.) The Department will complete a major upgrade to the Document Imaging and Electronic Remittance application to better position the agency for the new COTS solution.

Transparency

The New Hampshire Department of Revenue Administration's "Transparency" webpage is devoted to the distribution of revenue information with respect to the taxes administered by the Department. This webpage was created to promote transparency by providing the public with on-line access to aggregate tax revenue information, data and reports, which are not confidential. <http://www.revenue.nh.gov/transparency/index.htm>

Effective August 1, 2013, (Chapter 224:379 through 224:381, Laws of 2011) the Tobacco Tax rates are as follows:

Cigarettes

The tax rate for each pack containing **20** cigarettes is \$1.78 per pack.

The tax rate for each pack containing **25** cigarettes is \$2.23 per pack.

Other Tobacco Products (OTP)

The tax rate for all other tobacco products (OTP), except premium cigars, **65.03%** of the wholesale sales price.

Premium Cigars

Premium cigars are excluded from the Tobacco Tax.

Cigars that do not meet the definition of a "premium cigar" or the definition of a "cigarette" under RSA 78:1, XVII are taxed at the rate for OTP. Little cigars, however, are deemed cigarettes under the statute and are taxed at the cigarette rate.

TOBACCO TAX - RSA CHAPTER 78

The Tobacco Tax is a direct tax upon the consumer at retail. However, it is pre-collected and paid by the wholesaler. It is presumed the Tobacco Tax has been pre-collected and paid by the wholesaler by the affixing of a Tobacco Tax Stamp on the tobacco product. Consumers who purchase unstamped tobacco products will be taxed directly for the Tobacco Tax on such product. The Tobacco Tax was first enacted in 1939. Originally the tax was based upon the value at the usual selling price of all tobacco products. In 1975, the tax was changed to a flat rate of \$0.12 per package of 20 cigarettes. At that time, there was no tax on other tobacco products. Over the next 34 years the tax was increased from \$0.12 to \$1.78 per package. In 2011, the Tobacco Tax rate was decreased from \$1.78 to \$1.68 for each package containing 20 cigarettes or at a rate proportional to such rate for packages containing more or less than 20 cigarettes. As of August 1, 2013 the Tobacco Tax rate increased from \$1.68 to \$1.78 for each package containing 20 cigarettes, per Chapter 224:379 through 381, Laws of 2011. In 1991, the Legislature enacted a tax on tobacco products other than cigarettes (OTP Tax) at the rate "proportional to the cigarette tax, having such ratio to the usual wholesale price of the tobacco product other than cigarettes as the cigarette tax bears to the usual wholesale price of the cigarettes." In 2003, the OTP Tax was changed to 19% of the wholesale sales price. The OTP Tax rate was changed again in 2009 to 48.59% of the wholesale sales price, and then in 2010 to a rate of 65.03% of the wholesale sales price. In 2011, the OTP Tax rate was decreased to 48% of the wholesale sales price. As of August 1, 2013, the OTP Tax rate increased from 48% to 65.03% of the wholesale sales price, per Chapter 224:379 through 381, Laws of 2011. Wholesalers are required to report their tax liability for the collection of the OTP Tax on a monthly basis. The return is due on or before the 15th day of the month following the end of the reporting period. Wholesalers may file quarterly, but permission to file quarterly must be pre-approved, in writing, by the Department.

- Approximately 140,000 Businesses have registered with the NH Secretary of State (SoS) and are in “Good Standing” or have an “Active” status.²
 - 69,917 Business Entities filed business tax returns
 - § 27,185 Business Entities filing business tax returns paid no (\$0) BET or BPT
 - 42,732 Business Entities filed business tax returns with payments totaling \$514.7m, of which
 - § 1,243 (2.9%) of those paid 70% of BET/BPT (\$361.3m out of \$514.7m)
 - 1,019 (81.9%) are corporations paying a total of \$323,920,234
 - 191 (15.4%) are partnerships paying a total of \$33,970,321
 - 33 (2.7%) are proprietors and fiduciaries paying a total of \$3,403,265
 - § The remaining 41,489 (97.1%) paid 30% of BET/BPT (\$153.4m out of \$514.7m)
 - Of the 41,489 Business Entities that filed and paid 30% of BPT/BET:
 - 10,218 (24.6%) paid under \$500 = \$ 2,074,371 (1.4%)
 - 7,266 (17.5%) paid \$500 - \$1,000 = \$ 5,440,786 (3.5%)
 - 20,016 (48.2%) paid \$1,000 - \$10,000 = \$63,736,034 (41.6%)
 - 3,989 (9.6%) paid \$10,000 - \$50,000 = \$82,085,745 (53.5%)

	BET	BPT	Combined	%
Corporations	\$171,744,983	\$250,384,361	\$422,129,344	82.0%
Partnerships	\$19,290,785	\$45,134,727	\$64,425,512	12.5%

 - § 29 (3.7%) are proprietors and fiduciaries paying a total of \$2,766,369

¹ Per returns received as of August 28, 2017.

² Businesses that want to preserve a trade name have to register a trade name with the NH SoS. A corporation, LLC or limited partnership must also register with the NH SoS. Being registered with the NH SoS does not necessarily mean that the business is engaging in business activity in NH or that they meet the BET or BPT filing threshold. Proprietorships and rental businesses do not register unless they want to protect the name of the business.

	6/25/11	CH 207	RSA 77-A:4, III, for taxable periods beginning on or after January 1, 2011: Modified the standards and burden of proof with respect to the Business Profits Tax deduction for reasonable compensation attributable to owners of partnerships, limited liability companies, and sole proprietorships that file a business tax return as a partnership or proprietorship. Keeps the standards set forth in IRC §162(a)(1) and the \$50,000 "record-keeping safe harbor." Amends the burden of proving the reasonableness of the compensation deduction: A business organization claiming a deduction bears the burden of proving that all proprietors, partners, or members for whom a deduction is being claimed provided actual personal services to the business organization at any time during the taxable period. Once a business organization satisfies this burden of proof, the amount claimed as a deduction shall be presumed to be reasonable, unless the Department proves by a preponderance of the evidence that the deduction claimed by the business organization is clearly unreasonable.

	6/21/16	CH 300	RSA 77-A:4, XIV, eliminates the requirement that a business organization make an addition to gross business profits when an interest or beneficial interest in the business organization is sold or exchanged in an amount equal to the net increase in the basis of all underlying assets. Any portion of the annual depreciation or amortization attributable to the increase in basis federally from the sale of an ownership interest shall be added back to the gross business profits of the business organization and the gain or loss on the sale or disposition of the asset shall be calculated without regard to the basis increase recognized federally. The business organization may make an irrevocable election to recognize the basis increase for any particular sale or exchange and if made, the business organization shall make an addition to gross business profits in an amount equal to the net increase in the basis of its assets in the tax period when the sale or exchange of the ownership interest occurs. The business organization may then deduct against gross business profits any annual depreciation or amortization attributable to the increased basis and take into consideration the basis increase upon the sale or disposition of the asset. Applicable to sales or exchanges occurring on or after 1/1/16.

This tax is handled basically the same as the telephone tax was handled before the enactment of the Communications Services Tax.

The Department appraises the entire company to determine the "Current Market Value" of the company. A portion of this value is then allocated to the state, based on the original cost of investment in NH compared to the original cost of investment everywhere. The result is the "Market Value in NH". From this value, the amount taxable at the local level is deducted by comparing the total original cost of land and buildings at the local level, to the total original cost in NH. This result is the "Market Value Taxable at the state level (the items taxable at the state level would include lines poles switching equipment...). This value must be reduced to the average level of assessment in the state (for 1989 it was 63%). Then the "Average State Tax Rate is applied to calculate the taxes due in NH.

EX. MARKET VALUE OF ENTIRE COMPANY=	1,000,000

2016 Property Tax Tables By County, Valuations, Taxes and Tax Rates

State of New Hampshire

This report presents the 2016 Tables by Counties as compiled by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3 XII, Which states:

“XII. File with the secretary of state his report showing all the taxable property in the state and its assessed value, it tabulated form, and such other statistics and information as may be deemed of interest. This report shall be filed not later than 30 days after all necessary figures become available.”

Annually, each municipality is required to certify to the Department of Revenue Administration the assessed valuation of all taxable property in that municipality. This information is reported on the Summary Inventory of Valuation, MS-1 Report.

Assessment information is also gathered regarding exemptions and tax credits as well as taxes raised by each municipality. An exemption is an amount deducted from a taxpayer's assessment vs. a tax credit which is an amount deducted from the taxes due by a taxpayer.

The following is an explanation of the information contained in this report.

Land Valuation: The sum of the taxable land valuations for the following land subcategories:

Current Use: RSA 79-A

Conservation Restriction: RSA 79-B

Discretionary Easement: RSA 79-C

Discretionary Preservation Easement: RSA 79-D

Taxation of Farm Structures & Land Under Farm Structures: RSA 79-F

Residential

Commercial / Industrial

The values in the above are prior to the application of any exemption and do not include any utility land value.

Building Valuation: The sum of the taxable building valuations for the following building subcategories:

Residential

Manufactured (Mfg) Housing: RSA 674:31

Commercial / Industrial

Discretionary Preservation Easement: RSA 79-D

Taxation of Farm Structures & Land Under Farm Structures: RSA 79-F

The values in the above are prior to the application of any exemption and do not include any utility building value.

Public Utilities: The sum of all utility values classified as public water, gas, electric, oil, pipeline or other pursuant to RSA 83-F. Other utilities include that the Department of Revenue Administration has not appraised. Some examples of other utilities include hydro plants, water and certain gas companies.

Mature Wood & Timer: RSA 79:5

Gross Valuation: The valuation of all taxable property in each municipality prior to adjustments for property tax exemptions.

Educational & Special Exemptions: The sum of the following exemptions:

RSA 72:36-a, Certain Disabled Veterans

RSA 72:38-b, Improvements to assist the deaf

RSA 72:37-a, Improvements to assist persons with disabilities

RSA 72:23 IV, School Dining, Dormitory and Kitchen Exemption (maximum \$150,000 per property)

RSA 72:12-a, Water & Air Pollution Control Facilities Exemption

Modified Assessed Valuation: The sum of gross valuation minus the educational and special exemptions. The modified assessed valuation is the basis for calculating the equalized values for each municipality.

Local Optional Exemptions or Exemptions with Optional Elements: Each municipality has adopted an elderly exemption. The amount of the exemption and the specific criteria (asset and income limits) to qualify are determined locally within statutory requirements. Each municipality may adopt the other exemptions listed below in this section:

RSA 72:37, Blind Exemption

RSA 72:37-b, Disabled Exemption

RSA 72:38-b, Deaf Exemption
RSA 72:39-a & b, Elderly Exemption
RSA 72:70, Wood-Heating Energy Systems Exemption
RSA 72:62, Solar Energy Systems Exemption
RSA 72:66, Wind-Powered Energy Systems Exemption

RSA 72:23 IV, Additional School Dining, Dormitory and kitchen Exemption (maximum \$150,000 per property)

Net Local Assessed Valuation: The sum of the modified assessed valuation minus the value of the blind, elderly and local optional exemptions.

Gross Property Taxes: The sum of the net tax commitment plus the veteran's tax credits. The Department of Revenue's Municipal Services Division establishes the property tax rate using this figure.

Less Veterans Tax Credits: The sum of tax credits granted pursuant to RSA 72:28, RSA 72:29-a, RSA 72:32 and RSA 72:35.

Net Tax Commitment: The sum of the gross property taxes minus the sum of the veteran's credits. The amount a municipality must actually raise in taxes equals the sum of the amount appropriated by the municipal legislative body minus any revenues.

Actual Tax Rate: The sum of the municipal, county, local, and state school education tax rate. This tax rate does not include any village district or precinct tax rate.

Residents Tax: The sum of monies collected by a municipality for the Resident's Tax pursuant to RSA 72:1.

County Summary: The total of each of the above listed for all ten counties in the state. The county tax rate listed is the average county Tax rate and is calculated by taking the sum of the tax rates for all municipalities in a county and dividing by the number of municipalities.

Educational & Special Exemptions Report: A breakdown of the educational and special exemptions granted by municipalities. These are not optional.

Local optional Exemptions Report: A breakdown of what each municipality currently grants. These are optional, and must be adopted by legislative body of the municipality.

For further explanation about any information contained in this report, please contact the Department of Revenue Administration, Municipal & Property Division at 603-230-5950.

State of New Hampshire

2016 Equalization Survey

Municipal & Property Division

NEW HAMPSHIRE PROPERTY TAX SYSTEM
SUMMARY
May 1, 2017

The following explanation summarizes the budget, assessment, equalization and assessment review processes to assist taxpayers in understanding New Hampshire's property tax system.

STEP I: THE BUDGET PROCESS

Every property owner is responsible for paying a portion of the money necessary to operate their town or city, their school district, their village district (if any) and their county. Each town or city, school district, village district and county must establish a budget, hold public hearings on the budget and submit the budget to their legislative body for approval.

Who are the legislative bodies that vote the appropriations necessary to fund the town or city, school and county budgets? For a town, the annual town meeting is the legislative body, which appropriates money to operate the town. The annual school district meeting does the same for the schools, and the annual village district meeting does the same for districts. Generally for a city, or a town with a town council form of government, the council or board of mayor and alderman vote the appropriations. The county delegation comprised of the State Representatives from the county, appropriate the money necessary to fund county government. This amount is apportioned to each town or city in that county based on its proportion of the total equalized property value in that county.

It is these appropriations, voted by either your elected representatives at county delegation meetings and council meetings, or voted by you at your annual town and annual school district meetings, which establish the basis for property taxes in New Hampshire.

STEP II: THE ASSESSMENT PROCESS

Your property taxes are based upon the assessed value of your property as of April 1. This means that your tax bill, generally due in December, reflects the assessment of your property on the previous April 1. For example, if you built a garage on May 15 of this year, you would not be assessed taxes on that garage until next year, since the garage did not exist on April 1.

It is the responsibility of the selectmen or the assessor to annually determine the local assessed value of the property within your municipality as of April 1 each year. This assessment is best determined by a complete revaluation or update of all property within your town or city.

During a revaluation, property is physically reviewed and then valued based upon either the sale prices of other comparable properties or by other means. Theoretically, the intent of a revaluation is to assess property at its "full and true" value, often referred to as "market" value. But more importantly, the purpose of a revaluation is to insure that property within your municipality is assessed proportionally so that each property owner bears their share of the property tax burden based upon the "value" of their property.

A complete annual revaluation can be costly and time consuming. Consequently, a complete revaluation is not conducted every year. A revaluation establishes base year property values. In the years following a revaluation, the assessors value the pick-ups: the new construction, the subdivisions, and other changes to the property. Depending on the amount of change reflected in current sales, assessors may also conduct

partial revaluations or statistical updates. In any event assessors must maintain proportionality among all property values on an annual basis.

Pick-ups (new construction and improvements) are assessed as of April 1. Unless all properties are updated to current market value; pick-ups are valued not at current year values, but valued at the revaluation year values. That way, if a revaluation had been done in 2016, a 3-bedroom cape style home built in 2015 will be assessed comparably to a 3-bedroom cape style home built in 2015. This assumes all other factors affecting the value of the home are the same, such as the neighborhood, the amount of land, the quality of construction, the number of bathrooms, etc.

STEP III: THE TAX RATE

The appropriations voted by the town or city, the school district, village district (if any) and the county, less revenue from all other sources, equals the amount of money needed to be raised by taxes. The money needed to be raised by taxes is then divided by the local assessed property values to arrive at the property tax rates.

For example, if an annual town meeting appropriated \$1,000,000 to fund town appropriations and anticipates receiving \$300,000 from motor vehicle registrations, other fees, gifts and grants to the town, then the balance of money needed to be raised by taxes would be \$700,000. This amount divided by a local assessed property value of \$25,000,000, for example, would equal a tax rate of \$28.00. Property tax rates are normally expressed per \$1,000 of valuation. The equation for determining the local property tax rate is as follows:

$$\frac{\text{VOTED APPROPRIATIONS minus ALL OTHER REVENUE} \times 1,000}{\text{LOCAL ASSESSED PROPERTY VALUE}} = \text{PROPERTY TAX RATE}$$

By law, your property tax bill must show the assessed value of your property, along with the tax rate for each component of the tax: the town/city, village districts (if any), county, local education and state education tax rates.

STEP IV: EXEMPTIONS AND TAX CREDITS

An exemption is a reduction in the local assessed value of property, while a credit is a reduction of the amount of tax due.

Every municipality offers some form of an exemption for elderly property owners meeting certain qualifications, and a tax credit for veterans. In addition, municipalities may adopt and grant the following exemptions: blind, disabled, deaf, wood-heating energy system, wind-powered energy system, and solar energy system exemptions. Property tax credits are available to qualifying veterans or their surviving spouses.

Applications for an exemption or a tax credit must be made to the municipality by [April 15th](#) prior to that year's tax bill. A tax deferral may be granted for elderly or disabled taxpayers meeting certain criteria on an application submitted to the municipality by [March 1st](#) prior to that year's tax bill.

Education property tax relief is available to low and moderate income homeowners who:

- . Own a homestead or an interest in a homestead subject to the education property tax;
- . Have resided in the homestead on April 1 of the year for which the claim is made; and
- . Had a total "household income" of
 1. \$20,000 or less if a single person;
 2. \$40,000 or less if married or head of a New Hampshire household.

Forms for the low and moderate income homeowner's property tax relief program are available by May 1st on the Department of Revenue Administration's website at <http://revenue.nh.gov/>. The form [DP-8] is a fillable PDF form which can be opened, completed, and saved.

Pursuant to [RSA 198:57, VI](#), education property tax relief claims must be filed with the Department of Revenue Administration between May 1st and June 30th following the due date of the final tax bill as defined in RSA 76:1-a for state education property taxes. The Department of Revenue Administration rules for the low and moderate income homeowner's property tax relief are located at [Rev 1200](#).

STEP V: THE EQUALIZATION PROCESS

All towns and cities do not conduct revaluations in the same year. Some may be assessing property close to full value (because they just conducted a revaluation) while other towns and cities are assessing property at more or less than full value (because their revaluation is not current). This inconsistency makes it difficult to compare towns and cities to one another since the local assessed valuations are based upon different revaluation years.

The annual equalization survey conducted by the Department of Revenue Administration addresses this inconsistency by adjusting each municipality's total local assessed property value to full value.

The sole purpose for equalizing local assessed property values is to ensure that public taxes and state revenues shared by towns and cities will be reasonably apportioned. This includes state education tax, county tax, some cooperative school district taxes and some village districts taxes. The equalization process involves a detailed study of property sales throughout the state and compares those sales with the local property assessments. A by-product of the equalization process is the determination of a ratio. Generally, the ratio shows the average level at which the town or city assessed property in the previous year in comparison to full value. Ratios for each municipality are issued by the department generally by April as a result of the Equalization Process. For more information, contact the Department at (603) 230-5950 or visit our web site at <http://revenue.nh.gov/>

For example, a ratio of 90% would indicate that the town generally assessed property at approximately 90% of full value. The ratio does not necessarily apply to any specific property assessment, but rather indicates the average level of assessment throughout the town or city.

Over a period of several years, as the value of property increases or decreases due to market fluctuations, the ratio (the comparison of the local assessed value to full value) also fluctuates. A ratio of 100% indicates that, on the average, the municipality is assessing at full value. A ratio below 100% indicates average assessments are below full value, and a ratio above 100% indicates average assessments are above full value.

Neither a high nor a low ratio, in itself, should be cause for alarm. Whether a town or city is assessing at 110% or 90% of full value is really not significant. What's important is that the assessments are proportional, so that each property owner bears their share of the property tax burden based upon the value of their property.

STEP VI: ASSESSMENT REVIEW

As a result of the Supreme Court's decision in *Sirrell v. State of New Hampshire*, [RSA 75:8-a](#) was adopted which requires all towns and cities in New Hampshire to reappraise all real estate within the municipality so that the assessments are at the full and true value at least as often as every fifth year. The Department of Revenue Administration is mandated by [RSA 21:j:11-a & b](#) to review and report the degree to which assessments of municipalities achieve compliance with applicable statutes and rules. The third five-year cycle

began in 2013. Approximately one-fourth of the towns and cities will be scheduled for this Assessment Review in 2013, 2014, 2015, and 2016 respectively. The Assessing Standards Board (ASB) has adopted recommended standards to be met by towns and cities for their assessment review. The Department's staff conducts field reviews of the records and assessing practices of all towns and cities in accordance with the ASB recommended standards and reports their findings to the municipalities and to the ASB. This report becomes a public document upon its issuance.

STEP VII: PROPERTY ASSESSMENT APPEAL PROCESS

There is a two-level appeal process available to any property owner who believes the assessment of their property is in error. The first level of appeal to request an abatement of property taxes must be made to the local assessing officials. The request for abatement must be made in writing by March 1st after the date the tax bills were mailed. If the local assessing officials neglect or refuse to satisfactorily abate the tax, the second level of appeal is either to the Board of Tax and Land Appeals or to the Superior Court in the county where the property is located.

An opinion that property taxes are "too high" is not adequate grounds to justify an abatement. The "amount of tax" is usually not appealable since the amount of money needed to fund local government operations is determined by the local legislative bodies through the budget process. Generally, there must be an error in the assessment of your property in order to qualify for an abatement.

CONCLUSION

Property taxation in New Hampshire is a process involving all levels of government, from the voters at town and school district meeting, city councilors, and local assessing officials, to state legislators and court officials. It is a yearly process beginning with the preparation of the budget and voting of appropriations, continuing with the assessment of property and the setting of the tax rates, and concluding with the appeal process. Residents and non-residents, homeowners and landlords, commercial and industrial businesses, all bear the responsibility for paying their proportional share of property taxes.

2016 EQUALIZATION SURVEY

“Including Utility & Railroad”

STATE OF NEW HAMPSHIRE

**DEPARTMENT
OF
REVENUE ADMINISTRATION**

2016 EQUALIZATION SURVEY

“INCLUDING UTILITIES AND RAILROADS”

May 1, 2017

This report presents the results of the 2016 Equalization Survey “**including utilities and railroads**”. It was conducted by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3 XIII (*Revised 4/1/99*) which states:

“XIII. Equalize annually by May 1 the valuation of the property as assessed in the several towns, cities, and unincorporated places in the state including the value of property exempt pursuant to RSA 72:37, 72:37-b, 72:39-a, 72:62, 72:66 and 72:70 by adding to or deducting from the aggregate valuation of the property in towns, cities and unincorporated places such sums as will bring such valuations to the true and market value of the property, and by making such adjustments in the value of other property from which the towns, cities, and unincorporated places receive taxes or payments in lieu of taxes as may be equitable and just, so that any public taxes that may be apportioned among them shall be equal and just. In carrying out the duty to equalize the valuation of property, the commissioner shall follow the procedures set forth in RSA 21-J:9-a.”

To accomplish the foregoing, assessment ratio studies were conducted to determine how the average level of assessment for all cities and towns compares with the statutory 100% ratio so that taxes can be apportioned equitably.

The Department of Revenue Administration has completed its process of calculating the total equalized valuation of all the municipalities and unincorporated places throughout the state. The ratios reported for each municipality in this survey were derived by comparing the sale prices of sales of land, land and buildings and manufactured housing, covering the period of October 1, 2015, to September 30, 2016, against the actual assessments levied by the municipalities. Sales information was verified by the grantee whenever possible by means of the Inventory of Property Transfer, Form PA-34. Our goal is to use only arm’s-length sales that transferred for market value in this analysis. Every effort has been made to exclude non-arm’s length transactions including but not limited to: sales involving courts and government agencies, sales between relatives or corporate affiliates, sales settling an estate, forced sales, etc.

Every municipality was notified of its 2016 sales assessment ratio. These ratios were used in conjunction with other Department of Revenue adjustments to determine each municipality’s total equalized value for purposes of RSA 21-J:3 XIII.

The following is an explanation of the information contained in this report.

MODIFIED ASSESSED VALUATION: The modified assessed valuation for each municipality as reported to the Department of Revenue Administration on the municipality’s 2016 Summary Inventory of Valuation (MS-1 Report).

“GROSS LOCAL ASSESSED VALUATION” - Sum of all assessed values in the municipality

- Certain Disabled Veteran’s: RSA 72:36-a
- Improvements to Assist Persons who are Deaf: RSA 72:38-b V
- Improvements to Assist Persons with Disabilities Exemption: RSA 72:37-a
- School Dining/Dormitory/Kitchen Exemption: RSA 72:23 IV (\$150,000 max per exemption)
- Water & Air Pollution Control Exemption: RSA 72:12-a

= **“MODIFIED ASSESSED VALUATION”**

- Blind Exemption: RSA 72:37
- Elderly Exemption: RSA 72:39-a & b
- Deaf Exemption: RSA 72:38-b
- Disabled Exemption: RSA 72:37-b
- Wood-Heating Energy System Exemption: RSA 72:70
- Solar Energy System Exemption: RSA 72:62
- Wind Powered Energy System Exemption: RSA 72:66
- Additional School Dining/Dormitory/Kitchen Exemption: RSA 72:23 IV (Exemption amount > \$150,000)

= **“NET LOCAL ASSESSED VALUATION”** The municipal, county and local school tax rates are computed using the net local assessed valuation.

TAX INCREMENT FINANCE DISTRICTS (TIFS): RSA 162-K:10 III - The retained captured assessed value is added to the modified assessed value and will be equalized for all TIF districts created after 4/29/99. The original assessed value plus any unretained value is used to set a municipality’s tax rates.

DRA INVENTORY ADJUSTMENT: The sum of the adjustments of the modified local assessed valuation is divided into three categories.

Category 1: The total modified local assessed value of land (excluding land in current use, conservation restriction assessment, discretionary easements and utilities) buildings and manufactured housing is equalized by the 2016 equalization ratio. This category includes discretionary preservation easements, taxation of farm structures, land under farm structures. The difference between the modified local assessed valuation of land, buildings and manufactured housing and the equalized value equals the DRA adjustment for land, buildings, and manufactured housing.

Category 2: An adjustment for land assessed at current use, conservation restriction assessment, and discretionary easement values are made. This adjustment is calculated by dividing the total net local assessed valuation for land in these two categories by the 2015 equalization ratio to obtain the equalized value of current use, conservation restriction assessments, and discretionary easements. If a municipality has had a full revaluation or cyclical revaluation as defined by Rev 601.11 and 601.08, a ratio of 100.0 is used.

The difference between the local assessed value of the land and the equalized value equals the DRA adjustment for current use, conservation restriction

assessments, and discretionary easements.

Category 3: A DRA adjustment for public utilities, as defined by RSA 83-F, is made by comparing the market value of the utility as determined by the DRA to the net local assessed value of the utility. The difference between the assessed value and the market value equals the adjustment. The value of public utilities is not added into the “Total Equalized Value Not Including Utility Value or Equalized Railroad Taxes.”

EQUALIZED ASSESSED VALUATION: The sum of the “modified local assessed valuation” plus the DRA inventory adjustment. The equalized assessed valuation represents the equalized value of all “taxable” properties in a municipality.

PAYMENT IN LIEU OF TAXES: The equalized value for payments received in lieu of taxes includes State & Federal Forest Land Reimbursements, Recreation Land Reimbursements, Flood Land Reimbursements, renewable energy facilities (if applicable) and others.

RAILROAD TAX: The equalized value for monies received from the railroad tax. This figure is not included in the “Total Equalized Valuation Not Including Utility Values and Equalized Railroad Taxes.”

TOTAL EQUALIZED VALUATIONS INCLUDING UTILITY VALUE AND EQUALIZED RAILROAD TAXES: The sum of the equalized assessed valuation, the equalized value of payments in lieu of taxes and the equalized value of the railroad tax monies.

The Total Equalized Valuation including the value of utilities and equalized value of railroad monies reimbursed to municipalities represents the equalized value of all property in a municipality including utilities and will be used to:

- Apportion county taxes for the 2017 tax year;
- Calculate state reimbursements, and;
- Apportion cooperative school taxes for the 2018 tax year.

LOCAL TAX RATE: The actual tax rate as calculated by the Department of Revenue Administration, Municipal Services Division. The tax rate includes the municipal, county, local school and state education property tax rates.

EQUALIZATION RATIO: The 2016 equalization ratio as determined by a ratio study conducted by the Department of Revenue Administration’s equalization staff.

FULL VALUE TAX RATE: The 2016 gross local property taxes to be raised as reported by the Department of Revenue Administration, Municipal & Property Division, divided by the total equalized valuation including utility values and equalized railroad taxes. This figure represents the estimated tax rate for a municipality if all the taxable property was assessed at 100% and includes the equalized value of properties for which a payment in lieu of property taxes is made.

% PROPORTION TO COUNTY TAX: The percentage of proportion to \$1,000 of tax that is to be allocated to each town within the county comparing each municipality’s total equalized value to the total equalized value of the county.

% PROPORTION TO STATE TAX: The percentage of proportion to \$1,000 of tax that is to be allocated to each town within the state by comparing the town’s total equalized value to the total equalized value of the state.

COUNTY & STATE TAX RATE: The sum of the 2016 gross property taxes to be raised by each municipality in each county and the state divided by the total net local assessed value for each municipality in each county and the state.

STATE & COUNTY RATIOS: The state and county gross assessed values divided by the total equalized valuation. The state and county ratios are calculated for statistical purposes only. They are not applied to any figure as part of the equalization process.

APPEAL OF TOTAL EQUALIZED VALUATION

Municipalities were sent their 2016 Notification of Total Equalized Valuations on **April 26, 2017**.

Per RSA 71-B:5, II, any municipality aggrieved by the total equalized valuation as determined by the DRA must appeal to the Board of Tax and Land Appeals in writing **within 30 days of the town's notification** of the municipality's total equalized valuation.

The appeal period is not extended due to any communication, either verbal or written, between the DRA and a municipality regarding the total equalized valuation.

2016 EQUALIZATION SURVEY

“NOT INCLUDING UTILITIES AND RAILROADS”

May 1, 2017

This report presents the results of the 2016 Equalization Survey “**not including utilities and railroads**”. It was conducted by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3 XIII (*Revised 4/1/99*) which states:

“XIII. Equalize annually by May 1 the valuation of the property as assessed in the several towns, cities, and unincorporated places in the state including the value of property exempt pursuant to RSA 72:37, 72:37-b, 72:39-a, 72:62, 72:66 and 72:70 by adding to or deducting from the aggregate valuation of the property in towns, cities and unincorporated places such sums as will bring such valuations to the true and market value of the property, and by making such adjustments in the value of other property from which the towns, cities, and unincorporated places receive taxes or payments in lieu of taxes as may be equitable and just, so that any public taxes that may be apportioned among them shall be equal and just. In carrying out the duty to equalize the valuation of property, the commissioner shall follow the procedures set forth in RSA 21-J:9-a.”

To accomplish the foregoing, assessment ratio studies were conducted to determine how the average level of assessment for all cities and towns compares with the statutory 100% ratio so that taxes can be apportioned equitably.

The Department of Revenue Administration has completed its process of calculating the total equalized valuation of all the municipalities and unincorporated places throughout the state. The ratios reported for each municipality in this survey were derived by comparing the sale prices of sales of land, land and buildings and manufactured housing, covering the period of October 1, 2015, to September 30, 2016, against the actual assessments levied by the municipalities. Sales information was verified by the grantee whenever possible by means of the Inventory of Property Transfer, Form PA-34. Our goal is to use only arm’s-length sales that transferred for market value in this analysis. Every effort has been made to exclude non-arm’s length transactions including but not limited to: sales involving courts and government agencies, sales between relatives or corporate affiliates, sales settling an estate, forced sales, etc.

Every municipality was notified of its 2016 sales assessment ratio. These ratios were used in conjunction with other Department of Revenue adjustments to determine each municipality’s total equalized value for purposes of RSA 21-J:3 XIII.

The following is an explanation of the information contained in this report.

MODIFIED ASSESSED VALUATION: The modified assessed valuation for each municipality as reported to the Department of Revenue Administration on the municipality’s 2016 Summary Inventory of Valuation (MS-1 Report) “not including utility values taxed pursuant to RSA 83-F.”

“GROSS LOCAL ASSESSED VALUATION” - Sum of all assessed values in the municipality

- Certain Disabled Veteran’s: RSA 72:36-a
- Improvements to Assist Persons who are Deaf: RSA 72:38-b V
- Improvements to Assist Persons with Disabilities Exemption: RSA 72:37-a
- School Dining/Dormitory/Kitchen Exemption: RSA 72:23 IV (\$150,000 max per exemption)
- Water & Air Pollution Control Exemption: RSA 72:12-a

= **“MODIFIED ASSESSED VALUATION”**

- Blind Exemption: RSA 72:37
- Elderly Exemption: RSA 72:39-a & b
- Deaf Exemption: RSA 72:38-b
- Disabled Exemption: RSA 72:37-b
- Wood-Heating Energy System Exemption: RSA 72:70
- Solar Energy System Exemption: RSA 72:62
- Wind Powered Energy System Exemption: RSA 72:66
- Additional School Dining/Dormitory/Kitchen Exemption: RSA 72:23 IV (Exemption amount > \$150,000)

= **“NET LOCAL ASSESSED VALUATION Not Including Utility Valuation”**

The education property tax rate is computed using the Net Local Assessed Valuation Not Including Utility Valuation.

TAX INCREMENT FINANCE DISTRICTS (TIFS): RSA 162-K:10 III - The retained captured assessed value is added to the modified assessed value and will be equalized for all TIF districts created after 4/29/99. The original assessed value and any unretained value is used to set a municipality’s tax rates.

DRA INVENTORY ADJUSTMENT: The sum of the adjustments of the modified local assessed valuation is divided into two categories.

Category 1: The total modified local assessed value of land (excluding land in current use, conservation restriction assessment, discretionary easements, and utilities) buildings and manufactured housing is equalized by the 2016 equalization ratio. This category includes discretionary preservation easements, taxation of farm structures, and land under farm structures. The difference between the modified local assessed valuation of land, buildings and manufactured housing and the equalized value equals the DRA adjustment for land, buildings, and manufactured housing.

Category 2: An adjustment for land assessed at current use, conservation restriction assessment, and discretionary easement values are made. This adjustment is calculated by dividing the total net local assessed valuation for land in these two categories by the 2015 equalization ratio to obtain the equalized value of current use, conservation restriction assessments and discretionary easements. If a municipality has had a full revaluation or cyclical revaluation as defined by Rev 601.11 and 601.08, a ratio of 100.0 is used.

The difference between the local assessed value of the land and the equalized value equals the DRA adjustment for current use, conservation restriction assessments, and discretionary easements.

EQUALIZED ASSESSED VALUATION: The sum of the “modified local assessed valuation” plus the DRA inventory adjustment. The equalized assessed valuation represents the equalized value of all “taxable” properties in a municipality.

PAYMENT IN LIEU OF TAXES: The equalized value for payments received in lieu of taxes includes State & Federal Forest Land Reimbursements, Recreation Land Reimbursements, Flood Land Reimbursements, renewable energy facilities (if applicable) and others.

TOTAL EQUALIZED VALUATIONS *NOT INCLUDING* UTILITY VALUE AND EQUALIZED RAILROAD TAXES: The sum of the equalized assessed valuation and the equalized value of payments in lieu of taxes.

The **2016** “total equalized valuation not including utility and equalized value of railroad monies reimbursed to municipalities” will be used to apportion the state education property tax for the tax year 2018. The **2015** total equalized valuation not including utilities and the value of railroad monies reimbursed to municipalities will be used to apportion the state education property tax for the tax year 2017.

EQUALIZATION RATIO: The 2016 equalization ratio as determined by a ratio study conducted by the Department of Revenue Administration’s equalization staff.

% PROPORTION TO STATE TAX: The percentage of proportion to \$1,000 of tax that is to be allocated to each town within the state by comparing the town’s total equalized value to the total equalized value of the state.

STATE & COUNTY RATIOS: The state and county gross assessed values divided by the total equalized valuation. The state and county ratios are calculated for statistical purposes only. They are not applied to any figure as part of the equalization process.

APPEAL OF TOTAL EQUALIZED VALUATION

Municipalities were sent their 2016 Notification of Total Equalized Valuations on **April 26, 2017**.

Per RSA 71-B:5, II, any municipality aggrieved by the total equalized valuation as determined by the DRA must appeal to the Board of Tax and Land Appeals in writing **within 30 days of the town’s notification** of the municipality’s total equalized valuation.

The appeal period is not extended due to any communication, either verbal or written, between the DRA and a municipality regarding the total equalized valuation.

2016 COMPARISON OF FULL VALUE TAX RATES

The full value tax rate represents the estimated tax rate for a municipality if all the taxable property was assessed at 100% and includes the equalized value of properties for which a payment in lieu of property taxes is made.

The full value tax rate is calculated as follows: The 2016 gross local property taxes to be raised as reported by the Department of Revenue Administration, Municipal & Property Division divided by the total equalized valuation including utility values and equalized railroad taxes.

The full value rates are ranked in ascending order from lowest to highest (1-230 for 2016). If two municipalities have the same full value tax rate they are ranked with the same number. The unincorporated towns (signified by ****) have no 2016 tax rate, and thus are not ranked.

The full value tax rate can only be used to make a limited comparison of what a property in one municipality would pay for taxes to a property of equal value in another municipality.

For example:	Town A	$\frac{100,000 \times 21.95}{1000} =$	\$2,195.00
	Town B	$\frac{100,000 \times 26.56}{1000} =$	\$2,656.00

Due to diverse real estate values in New Hampshire, properties of equal value do not equate to properties of equal size or quality.

Prior to making any assumptions or decisions regarding a property owner's tax burden in a municipality, other factors should be considered such as real estate values, municipal services, schools, community make-up, and locational factors including proximity to urban areas, medical facilities, highways, recreation areas, etc.
